METHODOLOGY

In cases where there are multiple MMM classifications for a suburb, MMM classification represents population within the suburb, based on 2011 census population data. For example, the suburb classifications of 4 and 5. The region of the suburb classified as MMM classification 4 has a population of 284. As the majority of the population of the suburb with an MMM classification of 5 has a population of 284. As the majority of the population of the suburb with an MMM classification of 5 has a population of 284.
